*Working Women

ABSTRACT

Using data from personal interviews, participant observation in a rural poverty area, and intensive case studies, this study compared 1,325 women according to welfare, marital, and employment status. This appendix contains the tables of data used in the study. The other volumes are available as VT 014 885 and VT 014 887. (BH)

DEPARTMENT OF HUMAN DEVELOPMENT
AND FAMILY STUDIES

INITIAL LETTER

Cornell University is making a study that will be of interest to you. This has to do with what happens in a family if the mother works. We will be talking to some women who work and some who do not so we can study some of the problems and satisfactions of working or not working. The enclosed sheet tells you more about the study.

You have been selected at random from families with at least one teenage child at home. In order to save your time and ours, we are suggesting a time on the slip stapled to this letter when our interviewer will stop in to talk with you and to ask you some questions that have to do with the study. To thank you for your help, we will pay you \$3.50 for the interview which will last something over an hour.

If the day and time we have listed on the slip are not convenient for you, please telephone the field supervisor for your area. Her name and telephone number are listed on the appointment slip. For those who live outside of the local telephone area, we have enclosed a return postcard on which you can tell us times that would be better for you. You can also include any special directions for reaching your house.

Unless we hear from you, our interviewer will call at the day and time listed. If you have any questions about the study, you may call me collect at Ithaca 256-2174.

Thank you very much for helping us. We look forward to having a visit with you soon.

Sincerely yours,

Harold Deldman

NEW YORK STATE COLLEGE OF HUMAN ECOLOGY A STATUTORY COLLEGE OF THE STATE UNIVERSITY CORNELL UNIVERSITY ITHACA. NEW YORK 14850

EPARTMENT OF HUMAN DEVELOPMENT
AND FAMILY STUDIES

PANEL STUDY: PRE PAID GROUP

September 4, 1970

How would you like to have \$5.00 in exchange for about half an hour of your time? Last time you spent an hour to an hour and a half being interviewed for a study that I am doing about the different needs and experiences of women who work and women who do not work. You may remember that you were paid \$3.50 for the time you spent on that interview.

To complete the final phase of that study we are asking all of the nearly 1,200 women in New York State who were interviewed last time to fill out a questionnaire on their own and mail it back to us. Since this means we do not have to send an interviewer to each of the 1,200 women again, we can afford to pay \$5.00 to the women who fill out the questionnaire on their own and mail it back to us in the enclosed stamped, self-addressed envelope. In order to cut down our bookeeping costs, we are enclosing the \$5.00 check, made out to you. If you are unable to fill out the questionnaire, return both the check and questionnaire to us.

As you can see, this questionnaire is much shorter than the one we used last time. It shouldn't take you much longer than half an hour to fill it out. All of the information provided by individual women will remain absolutely confidential. It definitely will not be made available to any public officials or any persons not employed by our research group. When the information from the entire group of 1,200 women is finally analyzed, it should be helpful to persons who are interested in the wishes and expectations of housewives and working women, so please answer the questions as honestly and candidly as possible.

If you have any questions about any part of the questionnaire, or about the study itself, you may call me collect at 607-256-4520.

Although research results are not as valid if all the questions are not answered, we would rather have you reply to as many questions as you can than to none at all.

Our experience is that most women are interested in filling out the questionnaire, but there is a tendency to simply put it aside and then forget about it. Therefore, we urge you to complete the questionnaire and return it to us as soon as possible, preferably within a week.

I hope to hear from you soon and that you will be able to help us. We are very thankful for your cooperation.

Sincerely

Harold Feldman

Professor

EPARTMENT OF HUMAN DEVELOPMENT PANEL STUDY: FIRST FOLLOW UP LETTER AND FAMILY STUDIES

January 8, 1971

Recently you received a questionnaire from our research group which is a follow up on the interview you had with us last year. We realize that over the holidays people are very busy, but we are quite anxious to analyze our data from this mail out questionnaire and would appreciate it very much if you would fill it out now and return it to us as soon as possible. We have enclosed another questionnaire in case the first one has been misplaced.

If you have already filled out a questionnaire and returned it to us, please fill out this one too and indicate below that you have done so. You will be paid for both. Please remember to return this letter with your questionnaire.

PLEASE CHECK ONE:

 I have not filled out a questionnaire before this one, but I have misplaced the check you sent me. Please send a check for \$5.00.
 I have not filled out a questionnaire before this one. I still have the \$5.00 check you sent me, or have already cashed it. There is no need to send another.
 I have already filled out one questionnaire and returned it to you, but I have misplaced the \$5.00 check. Please send check for \$10.00
 I have already filled out a questionnaire before this one and returned it to you. I still have the \$5.00 check you sent, or have already cashed it. Please send a check for \$5.00.

If you are having any trouble completing the questionnaire because some of the questions seem unclear to you, or do not seem to fit your situation, please do your best to answer them as correctly as possible or write in other answers if you want to, and return the questionnaire to us, within a week if that is possible. For further questions, please feel free to call me collect at this number, 607-256-4520, any time during the week. If I am not in at the time, my administrative aide, Jan Gleason, will be able to help you.

Please leave the questionnaire intact - do not remove any sheets.

Sincerely,

Ha widklanian

DEPARTMENT OF HUMAN DEVELOPMENT AND FAMILY STUDIES

PANEL STUDY: SECOND FOLLOW UP LETTER

17 February 1971

Recently you received a questionnaire from our research group which is a follow up on the interview you had with us last year. We realize that you must be very busy, but it is very important for our study that each woman who has already been interviewed fill out this questionnaire and return it to us.

Enclosed is another copy of the questionnaire, and a check for \$5.00. Regardless of whether you have already completed a questionnaire and returned it to us, please complete this questionnaire and return it to us as soon as possible. The check for \$5.00 is payment for the time it will take you to fill out the questionnaire.

We realize that some of the questions on the questionnaire may seem unclear to you, or do not seem to fit your situation. If you are having any difficulties with any of the questions please feel free to write in any explanations or comments, or call me collect anytime at 607-256-4520 so that I might clarify them for you.

Please do not detach any of the pages of the questionnaire.

Thank you very much for your cooperation.

The same of the sa

Sincerely,

Hard Feldman
